IN THE SPECIFICATION

Please amend the specification as follows (a marked-up copy of paragraphs 10-12 and 25 of the specification is attached to this paper):

A¹
[0010] Presenting the image that does not fit in may include presenting a proposed image that does not fit in through the computer network, which is accessible by multiple participants. Votes are received on whether the proposed image that does not fit in can be agreed upon as a nightmare. The proposed image that does not fit in is then presented as the initial image that does not fit in when the voting determines that the participants agree that the proposed image that does not fit in can be agreed upon as a nightmare. At least a percentage of the participants that agree that the proposed image that does not fit in is a nightmare may be displayed over the computer network, substantially simultaneously.
